## Postoffice Change.

Thomas E. Shields, of the East End,  
has been appointed a clerk in the dis-  
tributing department of the postoffice.  
Until a little over a year ago he held a  
similar position at the postoffice, and the  
news of his reappointment will be  
received with favor by his many friends.  
This position has been vacated by Ed-  
win H. Pickett.

## West Liberty Alumni Picnic.

The alumni of the West Liberty Nor-  
mal school will hold their annual picnic  
at Wheeling park, Friday, August 27,  
and arrangements are being made to  
celebrate it on a more elaborate scale  
than on previous years. This is an event  
that always draws a large sprinkling of  
Liberty's graduates and their friends,  
and it is always enjoyable in every  
sense. It will be a basket picnic, which  
guarantees an enjoyable gathering.

## Abduction Case.

A Grafton abduction case found its  
way into Squire Rogers' court yester-  
day. I. C. Marks had sworn out a war-  
rant before Squire Rogers, August 12,  
for L. E. Hirst, charging him with ab-  
ducting his fourteen-year-old daughter,  
Minnie W. Marks. All the parties are  
residents of Grafton, and were present  
yesterday. The facts in the case were  
not very clearly brought out, as it will  
have to come up in a higher court. For  
his appearance at the next term court,  
Hirst had to give \$500 bond, which was  
furnished by John Cummins and Lee  
Wells. Hirst claimed that the child  
came to his house to live with his fam-  
ily. Her father was appointed her leg-  
al guardian, and he says she is heiress  
to quite a sum of money.

## AN ARMOR PLANT.

Bellaire is in the Field for a Gov-  
ernment Industry.

WILL DONATE 20 TO 40 ACRES

Of Land in Order to Secure the Location  
of the Industry in this Community.  
Congressman Danford Does Not Believe  
the Government will Go into the Armor  
Business, but is Ready to Work for Bel-  
laire if the Navy Department Takes that  
Step.

Congressman Lorenzo Danford was in  
Bellaire Tuesday evening and a few of  
the people there had talks with him  
concerning the probability of the gov-  
ernment going into the armor plate  
business. The very great difference be-  
tween the price of armor plate sold to  
the government and the reported price  
of sales in Europe by the same firms  
has caused the navy department to in-  
stitute an investigation as to the cost  
of this plate, and has also created talk  
of the government making its own armor  
plate.

Congressman Danford does not be-  
lieve the government is going into that  
business, but he is ready and willing to  
attract the attention of the committee  
to this section should it visit the Ohio  
valley, and to do whatever else seems  
practicable. Bellaire is fortunately in  
position to offer a site of twenty acres,  
located along railroad and convenient  
to the river, or even twice that number  
of acres, if that would be any induc-  
ement. The raw material can be had  
here as cheap as at any other point, and  
every other advantage as to its manu-  
facture is to be had.

The navy department has sent out a  
committee to look into the cost and it  
has visited the plant at Bethlehem, Pa.,  
with a view of ascertaining the cost of  
erecting and maintaining such a plant  
and to get at as near as possible the  
cost of producing armor plate. Upon  
the report of this committee may de-  
pend the recommendation of the de-  
partment and the action of Congress.  
Bellaire wanted to get into the field  
early and is in shape to offer greater  
inducements than have ever been of-  
fered there.

## KNIGHTS OF GOLDEN EAGLE

Of West Virginia are to Meet in Wheeling  
During the State Fair.

The Grand Castle of the Knights of  
the Golden Eagle, of West Virginia,  
meets in annual session in this city,  
September 7, 8 and 9. There are about  
thirty castles in this state and all will  
be represented. The order has shown  
considerable growth in this state the  
past year, and the meeting here is ex-  
pected to give the local castles quite a  
boom. In the lower part of the state the  
order is especially flourishing.

In connection with the gathering it is  
expected to effect a state organization  
of the auxiliary, the Ladies' Temple.  
There are eight temples, and if the nec-  
essary dispensation is secured in time,  
the Grand Temple will be effected. An  
elaborate programme of entertainment  
for the delegates is being organized by  
the local knights. Complimentary to the  
grand castle there will be an outing and  
picnic at Wheeling park, Wednesday  
afternoon, and in the evening Garfield  
Castle's quarters on the South Side, will  
be the scene of a banquet. Invitations  
have been sent to Princes of Kanawha  
and John Oley Commanderies, Uniform  
Rank, of Huntington, and their accept-  
ance will ensure a treat.

The committee on arrangements for  
the grand castle meeting, is as follows:  
John Ballinger, chairman; William  
Marsh, James Baird, John Lewedag,  
Louis Schau, John Cardona, Crawford  
McCracken, J. L. Degant, Charles Sells  
and Isaac Johnston.

## Car and Cart Collide.

An empty coal cart was struck by a  
street car on South Main street yester-  
day afternoon, and the driver executed  
a neat back summersault off his seat  
into the cart. Maybe he wasn't mad,  
and as soon as he found utterance and  
his feet, he glared at the motorman:  
"You're a nice man to drive a car,"  
he sneered.  
"Yes, and you're a nice man to drive  
a cart," was the calm reply.  
There was no damage to either cart or  
car. The occurrence was entirely the  
fault of the driver of the horse and it  
was greatly enjoyed by the spectators.

## THE NEW WAY.

A Great Success for Fitting All  
Kinds of Eyes With Glasses.

Our new scientific method of examining  
the eyes and fitting glasses without put-  
ting drugs in the eyes and making the  
patient blind for a week, or having them  
sit for hours looking at charts and trying  
to fit themselves until they become so be-  
wildered they cannot tell what they can  
see. We fit the eye for examination with-  
out depending on the patient and know  
when they are fitted correctly.
